2. Information for Ratepayers

Your rate notice shows the differential general rate category to which your property belongs. Section 90 of the *Local Government Regulation 2012* (Qld) provides that an owner may object to the categorisation of their property on the sole ground that the land should have been included in another rating category.

The notice of objection must:

- Be given within 30 days after the date of issue of the rate notice, and
- Be in the form approved by the local government (this application form), and
- Nominate the rating category in which the owner believes the land should be included, and
- Specify the facts to support the ratepayers claim.

Prior to making this objection, ratepayers should refer to the Gympie Regional Council Rating Category Statement attached. This includes both the general and specific criteria by which land is categorised.

Please note that Section 88 of the *Local Government Regulation 2012* (Qld) provides the making of an objection, or the starting of an appeal, does not defer the liability to pay rates by the due date. Should an objection be upheld, an adjustment will be issued.

3. Declaration of applicant/s

Differential General Rate category shown on your rate notice	
Differential General Rate category requested	
Primary Land use	
Secondary Land use	

Please state why you think the category should be reviewed and provide facts to substantiate your request:

Please note: If you consider that your property should be included in a Primary Producer Rating Category, please ensure advice has been sought from the Department of Resources in regards to complying with the required criteria for "Exclusive Use of Farming" under the *Land Valuation Act 2010* (Qld).

Decision on Objection: Under Section 91 (4) of the *Local Government Regulation 2012* Council must decide the objection, and give written notice of the decision to the owner, within 60 days after the end of the period within which the objection had to be made.

Right of Appeal:

Owners can lodge an appeal against Council's decision by filing a notice of appeal in the Land Court registry:

The Registrar
Office of the Land Court
GPO Box 5266
BRISBANE QLD 4001
Phone: 07 3738 7199

The notice of appeal must be filed within 42 days after the owner received notice of the decision and be in a form approved by the Land Court. Owners must give a copy of the notice of appeal to the local government within 7 days after the notice of appeal is filed in the Land Court registry.

Certification: (must be signed by all property owners)

I/We declare that the information provided on this application is true and correct. I/We authorise Gympie Regional Council to enter and inspect the property if required to determine the outcome of my/our request to change to differential rating category of my/our assessment (s.85 *Local Government Regulation 2012* (Qld)). This consent, once signed, remains valid while I/We are a customer of Gympie Regional Council unless I/We withdraw it by contacting Gympie Regional Council's Rates department.

2024/2025 Rating Category Statement

General Rates

Basis of rate

Pursuant to Section 94 of the *Local Government Act 2009* and Section 80 of the *Local Government Regulation 2012*, Council categorises and levies differential general rates on all rateable parcels of land within the region. The term 'rateable land' is defined by Section 93(2) of the *Local Government Act 2009*.

Differential general rates are based on the land valuation provided by the Department of Resources under the *Land Valuation Act 2010*. Land valuation enquiries should be directed to the department on 1300 664 217 or further information can be obtained from the department's website www.qld.gov.au/landvaluation or at the local business centre of the Department of Resources.

Rate to apply

The applicable differential general rates for the financial year ending 30 June 2025 are identified in Table 1 - Schedule of Rates, as adopted in the 2024-2025 Council budget. To calculate the differential general rate, the land valuation is multiplied by the relevant category's rate in the dollar as outlined in Table 1. Where the calculated amount is less than the minimum general rate, the minimum general rate is levied.

Differential general rates

Categories, identification and descriptions

Council has adopted a differential rating strategy for the 2024-2025 financial year. A differential system of rates provides equity for ratepayers through recognising the level of services required, current use or potential use of the property, and the financial impact on all ratepayers within the region.

Pursuant to Sections 81(4) and 81(5) of the *Local Government Regulation 2012*, the rating categories to which rateable land is categorised and levied accordingly, is delegated to the Chief Executive Officer and will be determined on one or more of the following criteria:

- The value of land, as determined by the Department of Resources
- primary land use
- land zoning as defined in Council's current Planning Scheme
- location within the region
- availability of services
- the consumption of services.

There will be 64 differential general rating categories in 2024-2025 for the purpose of levying differential general rates for the financial year. The rating categories and descriptions are outlined below in Table 1- Schedule of Differential Rates.

Minimum differential general rates

A minimum general rate is applied to each category to recognise that there is a base level of services applicable to each rateable parcel of land within each category. Council has applied the rate in the dollar and minimum general rate as indicated in Table 1 - Schedule of Differential Rates pursuant to Section 77 of the *Local Government Regulation 2012*.

For avoidance of doubt, and as stated in Section 77(3) of the *Local Government Regulation 2012*, Council must not levy minimum general rates for a parcel of land if:

- a) the *Land Valuation Act 2010*, Chapter 2, Part 2, Division 5, Subdivision 3, applies to the parcel of land (discounting for subdivided land not yet developed); and
- b) the discounted valuation period for the parcel of land has not ended under that subdivision.

Accordingly, any land within any of the above categories that has a Land Use Code of 7200 as determined by the Department of Resources will not be subject to the above prescribed minimum general rates.

Limitation of increase in rates or charges levied

For the 2024-2025 financial year, Council has not passed any resolution pursuant to Section 116 of the *Local Government Regulation 2012* limiting an increase in rates or charges relative to the previous financial year.

Objection to rating category

The Chief Executive Officer (CEO), Director Corporate Services, Manager Finance and Coordinator Revenue Services are each appointed as categorisation officers under Section 83 of the *Local Government Regulation 2012*.

Ratepayers may appeal the categorisation of their property in accordance with Section 90 of the *Local Government Regulation 2012*, within 30 days of the issue of their current rates notice. To appeal the categorisation, ratepayers must apply on the approved 'Objection Notice' form and outline:

- (a) the rating category that the owner claims the land should belong to; and
- (b) the facts and circumstances on which the owner makes that claim.

The CEO is authorised under Section 91 of the *Local Government Regulation 2012* to assess and determine the objection request.

Pursuant to Section 88 (4)(e) of the *Local Government Regulation 2012* ratepayers must pay their rates in full while their application is assessed to avoid recovery action and interest charges. Any adjustment made in the ratepayer's favour will be refunded on request, or applied as a credit to the rates account.
